### ADJOURNED MEETING.

Tuesday, January 16, 1883.

Reports of the city officers were presented and appropriately referred.

The following standing committees were appointed by the Mayor:

On Streets—Church, Meagher, McClure, and Williams.

On Charity—Meagher, McClure, and Mangum.

On Fire—Mangan, Sneed, and Church.

Councilman Sneed, from the special committee to whom was referred the bond of City Marshal Horgan, moved that the bond be approved. Adopted.

On motion, the special committee to whom was referred the matter of selecting a new site for the Opera House and ascertaining what price could be obtained for the old site and the Market-house, were given further time in which to report.

On motion of Councilman Dudley, said committee was empowered to employ an architect to assist them in selecting a suitable site.

On motion of Councilman Sneed, the Finance Committee was instructed to make prompt settlement with the late City Marshal, J. E. Kirtley, and relist the back taxes with Marshal Horgan.

On motion of Councilman Meagher, the Mayor, City Clerk, and Marshal were requested to count the vote cast for School Trustees at the late election, and deliver the certificates of election to the successful candidates.

Councilman Meagher offered the following:

Resolved, That the Committee on Gas and Water be directed to inquire what counsel, if any, is now employed by the city in defense of a suit now pending in the Franklin Circuit Court, in the case styled W. S. Dehoney and others against the Capital City Gas and Electric Light Company, and should they find any counsel so employed by the city authorities that they be empowered to withdraw same.

Councilman Williams moved to table the resolution.

Councilman Sneed demanded the yeas and nays. Those voting in the affirmative were Taylor and Williams; in the negative, Church, Drane, Meagher, McClure, Dudley, Sneed, and Mangum.

Mayor Taylor moved to amend the resolution by taking from the committee the power to withdraw counsel and requiring them to report to the Council at its next regular meeting. Adopted.

Councilman Dudley moved that the office of Street Commissioner be abolished, and that the Superintendent of the Water Works be required to attend to said duties. Rejected.

Councilman Meagher called for the yeas and nays on said motion, and the vote stood: For Dudley, Meagher, and Sneed; Against, Taylor, Church, Drane, McClure, and Williams.

This gate is in use and strongly recommended by Joseph Robinson, Whitefield & West, Taylor City, Ky.; W. L. Jones, Colon M. Jones, and others in this locality. It has been manufactured and used largely in the Northern States for the last six or seven years, and is universally acknowledged to be the most successful gate ever invented.

IT COSTS SO MUCH MORE THAN A GOOD COMMON GATE, and yet can always be opened and closed without GETTING OUT. It has been so thoroughly tested there can be no doubt but it will out last any ordinary gate. Send your orders to

Messrs. John Cochran & Co. are putting into their Spring Hill Billiard office an electric watchman's time clock, which cost them several hundred dollars. It is an arrangement by which they can ascertain if their watchman is attending to his duties at night, as there are stations at various points about the premises at which there are buttons which he must go and touch every half hour, and his presence at that point is recorded on the dial of the clock in the office by means of wires which connect the buttons with the clock, the mechanism being worked by electricity.

Turkeys, chickens, and rabbits at J. M. Banta's.

On Tuesday night the residence of Mrs. M. H. Stout, on the South Side, was entered by a burglar and clothing and valuables to the amount of about two hundred dollars carried off. It is supposed the thief must have entered the house about dusk, before the doors were fastened for the night, secreted himself in an upper room until the family had retired, and then began his work, as no trace of his having forced an entrance can be found. He first went into an upper room occupied by Mrs. Reinking, who was absent from home, broke open her trunk and bureau drawers, selected the best wearing apparel and some silversware, then went down stairs, took some bed linen, then went to Mrs. Stout's next the dining room was visited, where he broke open a sideboard and was preparing to carry off all the silverware contained, when Mrs. Stout and Mrs. Pollard, who occupied the next room, were awakened, and hearing them talking he hurriedly left, leaving the door open behind him.

The police were informed the next day and have been quietly working the case up since. The articles stolen were all marked with the names in full, and our citizens should be on the lookout for them.

The People's Kentucky River Navigation Company has been incorporated, Capt. S. V. Pence, Messrs. Richard Ferguson, John E. Miles, J. M. Wakefield, Dennis L. Halv, and Henry Golder being the incorporators, and are going to work in earnest. Already \$10,000 has been subscribed to the capital stock of the Company and it will be organized in a few days. It is to be built from various firms to build a boat for them and it is their intention to put a neat little packet into this trade in about ninety days. Capt. Sandy Pence has given up the idea of building another saw-mill here, and will invest the means he would have put into it in the stock of the company. This is an enterprise that should be encouraged by our citizens, for as soon as the boat makes her first trip there will be a tumble in freight charges.

## Bloomington.

Dear Roundabouts:

Having been a subscriber and reader of your excellent paper from its first number until the present time, my vision has never rested on anything from this place, hence have concluded to try my hand just one time, and unobtrusively say something that would be appreciated by some of your numerous readers. "Bloomington, Bloomington, let me see, where is Bloomington?" will be said by a few, and very few, too, as everybody should know where Bloomington is located. I will say, however, for the information of those benighted ones that Bloomington is situated just eight miles from the capital of the State, on the Ocean turnpike. And, for the way, let me say right here, in our city one buys as cheap dry goods and groceries as can be bought in your city, or any body else's city, and he would upon his honor, as the saying is, Mr. Ayer's store can furnish.

This place is also the home of one centurion, Mrs. Betsey Gravitt, who is said to be 107 years old. She is totally blind, and has been confined to her bed and room for a number of years. She is doubtless the oldest person living in the State, certainly in the county, being ten years older than the next oldest. She is now living here, and is in her 97th year, and as sprightly as most men of one half his age. Long may the Captain tarry.

This is certainly one of the healthiest sections in the county. We have heard of but one case of sickness in the neighborhood during the whole winter in which the services of a physician were required, and that is in the case of Mr. John Glendon, who has been very sick for several weeks but is now convalescent.

This place and vicinity is not behind in anything as far as dancing is concerned. Parties and socials are of almost nightly occurrence, the youngsters assembling one evening at one house and the next night at another, and so on until all the houses in the neighborhood have been visited. This day evening, the 19th inst., at the house of Mr. Henry Church, the little folks propose to have a candle pulling, and other amusements, which promises to be an enjoyable affair to those in attendance.

At one of these gatherings of the young steps a few evening since, at a house north of this place (as we have been informed), a very disagreeable row occurred between some young men, who should have known better than to have acted as they did in the presence of ladies and the more civilized gentlemen present. Shame on your gentlemen.

There will be an assembling of citizens, both old and young, some time during the winter at the magnificent residence of Captain John Milton Arnold, where there will be a grand ball, and, I think, a good time generally to both old and young is looked for. In the culinary department Mrs. A. is a success, and the Captain knows how to make every one feel at home. We'll be there.

[We will be glad to hear from Nipper often.—Ed.]

### The Best Site For the Opera House

Let the city buy the Hedder lot (where the old stage stands). The lot is of the following dimensions: 110 feet front on Ann street; 125 feet deep; to Buhr's line; thence with Buhr's line to river front, 183 feet. Mr. Buhr owns a lot of alleyway between the Major Hall lot and the Hedder lot. There is an alleyway of 4 feet 5 inches between Buhr's alley and the Buckley property. The two alleys and a part of the Major Hall lot added to the Hedder's front makes a total front on the river of 224 feet. By deducting 30 feet for street on the river front, the lot will be 94 by 125 feet.

The city can take the part of Major Hall lot and the Hedder lot, and the entrance to the Opera House from Main street. Offices for the Clerk and Council chamber can be the rest of the Major Hall lot entrance. The rest of the old Major Hall lot can be sold for business houses.

By erecting the Opera House on this lot it can be a one-story building (which it should be), thereby saving a large sum of money to the city in erecting the building.

There could then be three outlets to the building—one on Main street, one on Ann, and, if necessary, one on the river front.

The hall would be well ventilated, and not endangered by fire, as it would be built in any other part of the business portion of the city.

The river front could be beautified, and the house would be a credit to the capital of the State. It would be within a square and a half of the bridge and the Government building, by the new street on the river front, and but a short distance from the hotel. With the terrible loss of life that occurred at the Brock's theater a few years ago, together with the more recent accident in Prussia, where some 300 lives were lost by the burning of the theater, the citizens of St. Louis would be wise to build a sufficient warning to the Council, and cause them to be very cautious of the kind of building they have built for public amusement. There is no reason whatever that this Opera House should be a two-story building, and so be erected and situated as in the case of fire, that one-half of the people present should be burned alive, or expelled from life by jumping from the second story windows.

This location will certainly be the cheapest, the best and most desirable site for the Opera House, taking everything into consideration.

### \$100 Reward

Is offered for any case of Catarrh that can't be cured with Hall's Catarrh Cure. Taken internally. Price 75 cents.

## CAUSE OF APPREHENSION.

Why Mysterious Physical Troubles Arouse Special Dread—A Professional Experience.

Few things give more pain than dread or apprehension. Most people are able to face apparent danger heroically, but the sudden and unexpected coming of some indelicate calamity very naturally strikes terror to the heart. For this reason lightning and tornadoes are considered terrible, their coming and going are sudden, unannounced and unknown. For this same reason an unknown disease, some person in the blood, some malady that is gradually undermining the life, is specially dreaded by all thinking people. And, indeed, there are good reasons to such dread, for modern science has discovered that some venereal disorders show the least signs in their beginning, while they have the worst possible symptoms. Every doctor or many persons who have dull and uncertain pains in various portions of the body who are unusually tired one day and apparently well the next, who have common appetite at times and a feeling of food soon thereafter. Such persons are really in a dangerous condition, even though they may not realize it. The following statement of a most prominent physician, who has had many opportunities for investigation is of so striking and important a nature that it will be read with interest by all.

OFFICE NO. 274 WEST EIGHTH STREET.  
O. ANDERSON, M. D., SUPERINTENDENT.  
CINCINNATI, O., DECEMBER 2, 1882.

*Medical Editor.*  
I have during my professional career of many years treated a large number of various diseases, of which, perhaps, none have given me more trouble than the mysterious disease known as catarrh of the kidneys, and while it may seem strange, it is nevertheless true, that the physician is generally greatly surprised at the mysterious trouble, especially when the disease is of hereditary origin. It is, doubtless, the first stage of the well known, but terrible Bright's disease, as the kidneys contain large quantities of albumen, and while children and young people are especially liable to its attacks, it is prevalent with all classes, and usually continues until late in life.

The distinctive case which came under my observation, was that of a Frenchman, of this city who applied to me for treatment. The case was diagnosed parenchymatous nephritis. The man was twenty-four years of age, and had been completely blind, stated that he had suffered from urinary troubles from childhood, and that he had "doctored" a hundred times, each time improving somewhat after which, in a short while he would relapse into his former state of misery. I prescribed the mineral therapeutics known to the profession with the same result that my colleagues had obtained. He got better for a while and then worse again, in fact, so bad that he had to lay off for some time. He suffered intense pain, so much so that I could not but resort to hypodermic injections of morphia. My druggist who knew me well, told me with the case, although not willing to desert the man, advised me to try a remedy from which he (the druggist) himself had derived great benefit. As a drawing card, he carried at a street. I treated the remedy, not being my patient, however, knew what I was giving him; and, although not a believer in a patron of "patent medicines," I must confess that after my friend had taken one bottle he was cured. I continued to use it, and in a few days I was free from all my troubles, and the most gratifying results; it really worked wonders, and he was his cure and present perfect health. The remarkable cure of Warner's Safe Kidney and Liver Cure, the remedy which I prescribed, and he used.

Since the recovery of the man above mentioned, I have given considerable thought to the subject of acute nephritis or kidney difficulty, and I find that its manifestations are most remarkable. It often appears without any special symptoms of its own, or possibly as equal to scurvy, leprosy, diphtheria, and other diseases, and even arise from pregnancy. The first symptoms frequently show themselves in the form of high fever and intense pain in the lower region of the back of the body, "trouble" some micturitions and frequent changes in the color of the urine which at times disappears perceptibly. If the urine is entirely suppressed, the morbid individuals will remain fully in a very few days. Dropsy is a consequence of the suppression of urine, and the severance of it is governed by the proportion of retention. The nervous system becomes prostrated with subsequent convulsions and irregular circulation of the blood, which, in my estimation, eventually might cause a diseased heart to give out. As I have remarked in many kidney diseases, even in Bright's disease itself, there is no perceptible pain in the back, and these troubles often assert themselves in various symptoms; for instance, in troublesome diarrhoea, blood poisoning, high fever, weight loss, loss of appetite, threatened loss of consciousness, husky voice and many other complaints too numerous to mention. Indeed, thousands of people are suffering from the first stages of this disease to-day, and they do not know it.

In conclusion, I would like to state that I have, since my success with the Frenchman,

repeatedly prescribed Warner's Safe Kidney and Liver Cure, and if my professional brethren could only be brought so far as to overcome their prejudice against proprietary medicines they would, undoubtedly, find themselves recompensed for the supposed sacrifice of liberty as well as by the great benefits that would accrue to the world.

Most sincerely,  
O. ANDERSON, M. D.,  
Superintendent.

## TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause—**LIQUOR.** The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

It is a fact! Brown's Iron Bitters, a true non-alcoholic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old druggists and in every particular reliable, will, by removing the craving appetite of the drunkard, and by curing nervousness, weakness, and general ill health resulting from intemperance, do more to promote temperance, in the strictest sense, than any other means now known.

It is a well authenticated fact that many medicines, especially 'bitters,' are nothing but cheap whiskey locally concocted for use in local option countries. Such is not the case with Brown's Iron Bitters. It is a medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, producing good, rich blood, health and strength. Try one bottle. Price \$1.00.

## KENDALL'S SPASIN CURE

205

This is a well authenticated fact that many medicines, especially 'bitters,' are nothing but cheap whiskey locally concocted for use in local option countries. Such is not the case with Brown's Iron Bitters. It is a medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, producing good, rich blood, health and strength. Try one bottle. Price \$1.00.

Very respectfully,

E. S. LUDMAN.

good deal of your Kendall's Spasin Cure, with great

to let you know that I am a great fan of it. I

used two bottles of your Kendall's Spasin Cure, and

it has done me a great deal of good. I feel much

stronger, and my appetite is much improved. I
